SELECTED PROJECTS

E-Learn Management System

Web-based learning management system designed to organize educational content and support online learning.

Technologies: HTML, CSS, PHP, MySQL

Hospital Database System

Database solution designed to organize and manage hospital and patient-related records.

Technologies: MySQL, Database Design

HR Management System

Application designed to support employee information and human resource management processes.

Technologies: PHP, MySQL, HTML, CSS

Women's Breast Cancer Prediction

Machine learning project focused on predicting breast cancer using data analysis and classification techniques.

Technologies: Python, Machine Learning, Data Analysis

TECHNICAL SKILLS

Programming & Web Development

HTML, CSS, PHP, Python, Java

Database & Data

MySQL, Database Management, Data Entry & Data Management, KoboCollect, CSPro, CSEntry

Productivity & Digital Tools

Microsoft Office (Word, Excel, PowerPoint), Google Workspace, Google Docs, Google Sheets

Professional Skills

Administrative Support, Customer Service, Communication, Problem Solving, Team Collaboration, Time Management, Attention to Detail, Adaptability, Confidential Information Handling

CERTIFICATIONS

- **Cyber Security Certificate** — Simplilearn, 2022

- **Certificate** — Women, Children and Youth Affairs Bureau
